

Southeast Japanese School
Announcement
Covid protocol update

June 1, 2022

COVID Managers and Clubs

Effective Immediately

The Center has been very active in bringing back activities in the mist of the COVID pandemic. Many Covid protocols implemented and monitored by all the clubs helped prevent the spread of Covid.

Thanks to vaccinations, therapeutic medicine and better understanding of how to protect one self and others along with the reduced number of cases and hospitalization, we are now in the stage to relax our protocols.

As of today, the only protocol we are asking to continue to follow is keeping an attendance sheet for contact tracing purposes. No mask requirement for all activities and no temperature taking upon entering the center.

HOWEVER, the virus is still with us. **Although we are lifting the COVID protocols requirements it is highly recommended to continue to wear mask and practice good hygiene of washing your hands frequently and to remind your members not come to the center if feeling ill.**

Going forward, each club will decide how to maintain a safe environment for their members. If we experience another large surge in Covid hospitalization, the center may reinstate COVID protocols.

The committee would like to thank everyone for your support and cooperation in keeping everyone safe and healthy while attending our center.

Sincerely

Covid Committee
